FROM STRENGTH TO STRENGTH

Now serving an array of multinational and local clients, Active Business Solutions has carved a niche for itself in the industry. Offering a competitive advantage by optimizing performance, efficiency and growth potential through shared skills and resources, the Company is set to attain even greater heights in the years to come.

RESPECTED FOR AIMS & VALUES

Owing to constant focus on providing “the very best” to its customers and stakeholders, the overall work attitude at Active Business Solutions has become challenge-embracing, positive and forward-looking. Recognized and acknowledged openly, these values have earned respect for the Company from every quarter.

TO LEAD FROM THE FRONT AND EXCEL

At ABS, each one believes in giving the best output to stay ahead. This is because the team members get inspired and motivated by the Directors Mr. Mohammad Ameen Yausof and Mr. Haroon Rasheed, who constantly set examples of excellence for all to follow.

Mohammad Ameen Yousof – Director (Solution Architect)

Mohammad Ameen Yousof is a high energy, innovative and challenging individual with 15+ years of I.T experience. Holding an Internationally recognized Oracle Certification and Bachelors and Masters in Computer Science, he has successful experience in software development and management of I.T projects. He has a thorough knowledge of Business Functional areas and core business needs and a proven talent of translating them into required technical deliverables.

He started his career with Businet Express (Pvt) Ltd as a computer programmer back in 1996. He then join Century 21 Group of companies as an M.I.S Manager and later on as a Project Manager in their ISP setup named Century 21 Technologies. At Century 21, he plan, develop and manage the complete infrastructure for M.I.S in the factory including the successful implementation of a comprehensive and integrated Oracle based application for the overall factory operations. He then actively involve in their ISP setup.

He then serve Sulsoft (sister concern of S.Ejazuddin group of companies) as a Project manger where he was actively involve in System Analysis and Design, Project management and the over all administration and management of a software house. Before starting Active Business Solutions, he was working as an M.I.S Manager in Greenstar Social Marketing where he implement the Sales, Inventory and Quality applications in Karachi Head office and also in regional offices in Sukkur, Lahore and Islamabad.

Haroon Rasheed – Director (Network Consultant)

Haroon Rasheed started his career back in 1998. He did his Bachelors and Masters in Computer Science with specialization in Networking and web applications. He can handle the most complicated network problems and is well equipped with the knowledge of different networking environments in the corporate sector.

Haroon joined Sulsoft, a progressive software house and a part of S.Ejazuddin group of companies, as a Project officer. He was involved in the development of web based applications as well as looking after the network and email servers. He developed web based General Ledger, Inventory and Billing system for the clients. He then join B two B E-Solutions as a Senior Software Engineer, supervising a team of developers developing for off-shore clients. Before starting Active Business Solutions with Mr. Ameen Yousof, he was working as a Software and Network Consultant, serving number of clients including Web Crux, Manhattan Advertising, Mianoor Textile, Shadman Cotton mills, etc providing network, security and group ware services.

HARMONY ALL AROUND

Although Active Business Solutions possesses and promotes professionalism and smart work at every stage, efforts are always made to make the work environment friendly and energetic. This not only encourages hindrance-free operations but also improves relationships and efficiencies among various departments.

THE HUMAN FACTOR

It's the people that makes the difference. With this firm belief, the Company hires good people, trains and motivates them and provides them the environment to grow, instilling in them a spirit of professionalism and dedication. Professionalism and dedication together with the "We can do" attitude in turn ensures that the Company's mission and goals are achieved.

RESPONSIBILITY AND THE RIGHT ATTITUDE

Although decision making on policy matters and planning is done by the Directors and Managers, delegation of responsibilities at Active Business Solution is carried out in such a way that each employee has the freedom to act and contribute to his full potential.

Along with the flexible environment, the Company's "work hard" policy creates a culture where positivity, self-assessment and innovation become a norm, increasing prospects of development, growth and success.

SKILLS FOR OPTIMUM EFFICIENCY

We have a highly trained team having expertise on various hardware and network platforms, software languages and data base systems. Our technical expertise includes:

EMBRACING CHANGE AND DIVERSITY

Change is inevitable, diversity is natural. That's exactly why each team member at Active Business Solution is ever ready to accept change and operate accordingly. With the available infrastructure, expertise and dedication, there are no limitations in. Therefore, one can easily predict minimal risk for business partners and valued customers in the event of changes in demographics and their implications on the market composition.

THE TECHNICAL EDGE

We offer cutting edge state-of-the-art technologies for the development & implementation of software by following a standardized software development methodology which is a recognized sequence of phases, Tasks, decision points, and supporting documentation, leading to the successful implementation of a system.

Our software development methodology guides us along the path of minimum time, cost and risk in developing and implementing efficient and reliable systems. It ensures that systems are developed in a controlled manner with recognized review points to progressively reduce the risk involved. It improves communication and commitment between the development team and end users of the system, prevents duplication of effort and serves as reference for development team staff.

QUALITY – THE BEST POLICY

To determine product or service quality, Active Business Solution has a reliable Quality Assurance Team. Consisting of a technical team of IT specialists, the QA Department performs a variety of activities supporting the development (and implementation) environment of the Company.

In order to provide the best quality products and services, the QA Team monitors and evaluates adherence to processes, procedures and standards at every level. Latest software, techniques and equipment are used when comparing the demo to the given standards. Auditing and cost analysis also forms an important part of QA activities.
